

# STUDY VOLUNTEERS NEEDED for a research study on RESILIENCE AFTER SCI and its relation to pain, mood, and quality of life

**This study will involve completing phone interviews and online questionnaires every 4 months for a total of 12 months.**

## **You may be eligible if you:**

- ✚ Are at least 18 years of age
- ✚ Have had a traumatic spinal cord injury (SCI) and are at least one year post injury
- ✚ Have pain that has lasted at least 6 months

**Risks:** There are no known risks associated with this study other than fatigue or mild boredom. Some participants may feel discomfort responding to study questions on pain, SCI, mood, resilience, and life quality.

Monetary compensation will be provided.
